

# ROADMAP TO THE FUTURE

FOR YOLO COUNTY  
CHILDREN AND YOUTH

## What is the Roadmap to the Future?

A major commitment and investment by public agencies in Yolo County to build up our public infrastructure to support children, youth, and families in our county.

A comprehensive community engagement process to identify needs and existing community assets in Yolo County.

An asset mapping process that identifies gaps in resources and ways to fill those gaps.

With all leading to an online community tool that will allow everyone to access child, youth, and family-serving resources that exist in our community!

## Join us!

We invite all community members and children, youth, and family-serving organizations to join in this effort.

In-person Community Engagement Sessions coming to the following communities in January (more information coming soon):

- Davis
- Esparto
- West Sacramento
- Winters
- Woodland

Together, we can strengthen the well-being and resilience of children, youth and families in Yolo County for decades to come!
