

Family Survey Summary

In partnership with local schools and other regional organizations, surveys were distributed electronically to families across Yolo County. We received 191 responses, with representation from the following cities and towns: Davis, Dunnigan, Esparto, Guinda, Madison, West Sacramento, Winters, Woodland, and Yolo.

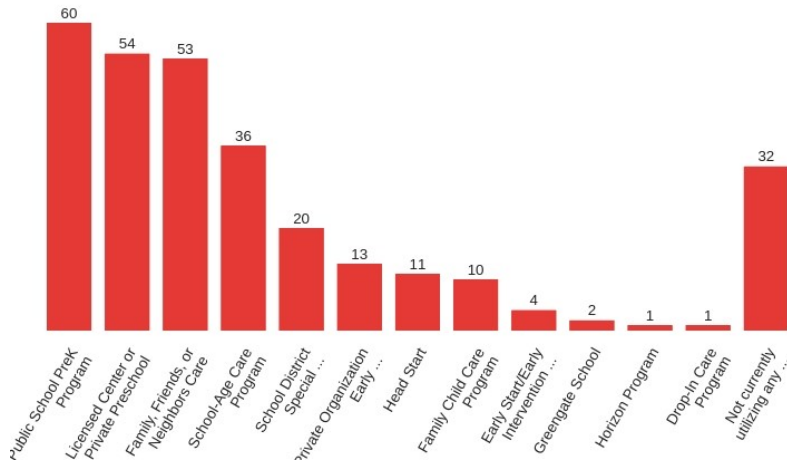

Approximately 89% of respondents participate in some form of educational programming, child care, or intervention service.

The following report highlights survey results pertaining to workforce effectiveness, language and literacy development, and child care needs.

Workforce Effectiveness

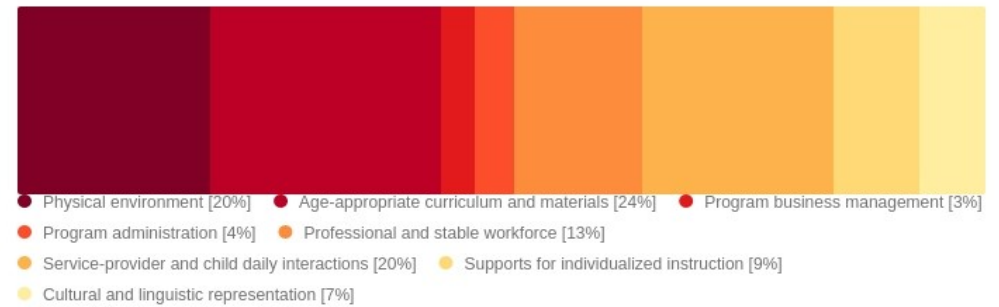

Which of the following does your family currently utilize? Select all that apply.

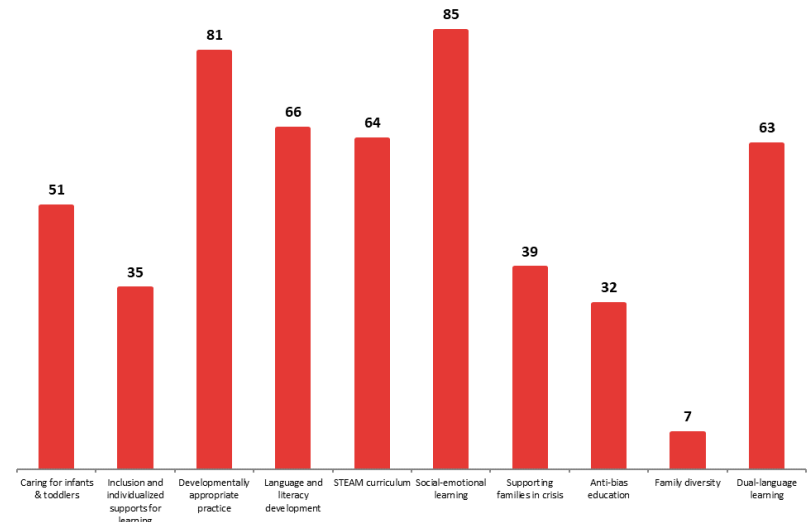

Have you experienced the following in your child(ren)'s early care, education, and/or intervention service program? Select all that apply.

What has the greatest impact on quality of service? Select three.

What staff training would most positively impact your family's experience in these settings? Select three.

Language and Literacy Development

What types of things do you have in your home for children to read or use for writing?
