Program Highlight: First Steps Infant Team

Many of our Greengate students were served by the YCOE First Steps Infant Program and the majority of the team is housed at Greengate School. The team is composed of two early childhood specialists, a physical therapist, an occupational therapist, two paraeducators, a speech/language pathologist, DHH specialist, and a school nurse. They have recently returned to in-home visiting and the team is already seeing exponential growth from their little clients and increased support to families. Congratulations Infant Team!

Mission Statement:

First Steps Infant Program's transdisciplinary team supports infants and toddlers in achieving their developmental milestones by focusing on the whole child. Through a coaching model, we support the family/caregiver by facilitating play-based and developmentally appropriate interventions within the natural environment. Our team celebrates families by providing emotional support and advocacy along their developmental journey.
